In-House Product Design

From concept to course, every detail is developed in-house. Our design team refines each product with precision, from initial sketches and 3D CAD models to prototypes and final production, ensuring furniture that is both functional and thoughtfully designed.

Expert Manufacturing

Handcrafted with care in our UK workshops, every item is built to enhance the character and prestige of your course. Combining advanced production methods with traditional craftsmanship, we create durable, refined furniture trusted by leading golf destinations worldwide.

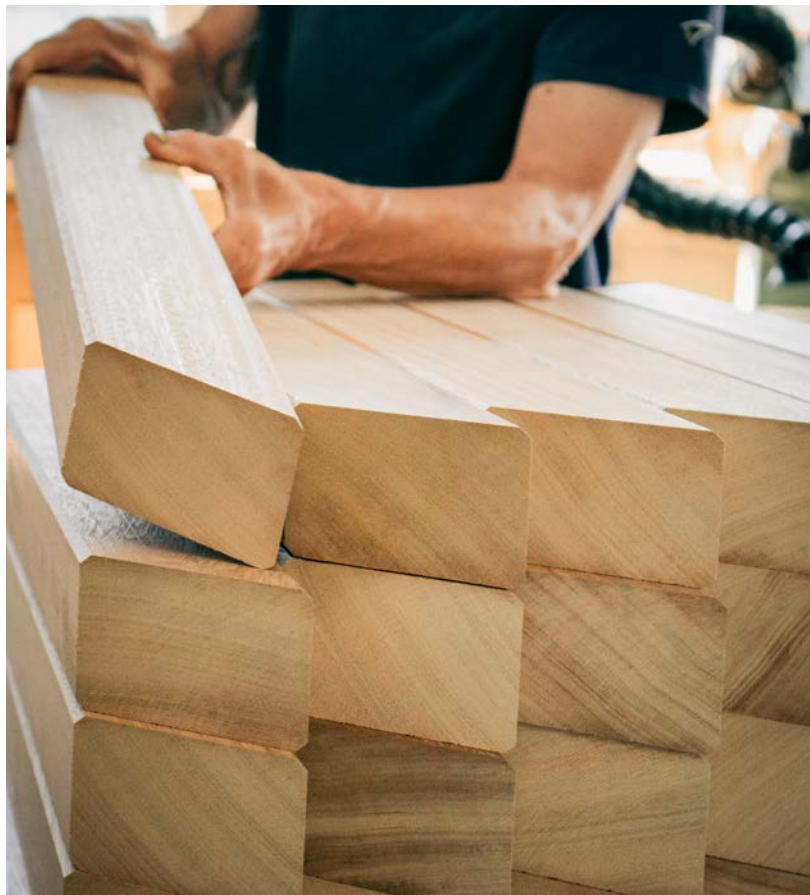

Our Materials

Choose from durable, sustainable materials designed to deliver lasting performance while enhancing your course. Every item is available in Iroko Hardwood, Consolidated Lumber or EaglePlex, allowing you to select the perfect material for your club.

Proudly
handcrafted
in the UK

EaglePlex

EaglePlex is made from 100% recycled plastic and is fully recyclable, supporting environmental conservation and reduced waste. This durable, maintenance-free polymer is a high-performance alternative to timber and rigorously tested to ensure lasting performance in outdoor environments.

Only available
in black

Made from 100% recycled plastic and fully recyclable.

Resistant to microorganisms, acids, alkalis and oils.

Versatile - A complete range of signage and furniture available.

UV-resistant and suitable for continuous use in temperatures -20 to +50°C.

High compressive strength.

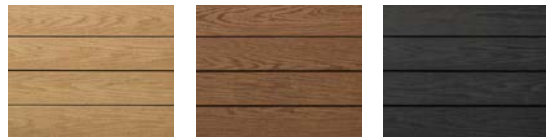

Fire resistant. Meets fire safety standards (DIN 4102).

Hardwood

Iroko Hardwood is a dense, durable timber with natural resistance to moisture, warping and decay. Ethically sourced and FSC/PEFC certified, it combines long-lasting performance with minimal maintenance. Available with Teknos water based stains, Iroko delivers sustainable strength and timeless appeal for outdoor furniture.

Light Oak

Dark Oak

Ebony

Ethical Sourcing
FSC and PEFC certified, ensuring responsible forestry practices.

Moisture Resistance
Natural oils protect against warping, shrinkage, and decay.

Proven Strength
Used in boat building for its exceptional resilience and durability.

Consolidated Lumber

Consolidated Lumber combines the natural beauty of timber with the high performance of polyurethane. Its textured surface is virtually maintenance free, resisting moisture, algae, fading and sun damage. With a verified carbon footprint, it offers a sustainable, long-lasting solution for outdoor furniture applications.

Antique Oak

Burnt Cedar

Coppered Oak

Golden Oak

Limed Oak

Smoked Oak

Warp and Rot Resistant
No timber content that will rot or can be eaten by insects and pests.

Resistant to Algae
Unlike wood, there is no protein content to assist algal growth.

UV and Weather Stability
Tested in most weathers and temperatures.

SINGLE

DOUBLE

Podium

Create the perfect welcome at your clubhouse or first tee. Practical storage for scorecards, bag tags and essentials, with a parasol option for shade.

STYLE	WIDTH	DEPTH	HEIGHT

A large, durable rack for neat and accessible storage of up to 40 sand and seed bottles, designed to support players in maintaining the course.

WIDTH	DEPTH	HEIGHT
1660mm	640mm	1685mm

The Eagle Difference

Eagle brings decades of expertise in premium golf course signage, print, and branding solutions.

Renowned for delivering high-quality, bespoke products, Eagle has become a trusted name in the golf industry. Our work is designed to elevate the golfer's experience, combining functional clarity with striking aesthetics.

From signage and scorecards to design support and course surveys, Eagle's solutions reinforce the identity and prestige of golf clubs worldwide. Through innovation and craftsmanship, we ensure every course is presented at its best, with well-crafted collateral that enhances the overall golfing experience.

Alongside our physical products, Eagle Plus offers a digital platform connecting golfers to live course data and club information, extending Eagle's design excellence into the digital space.

With decades of insight and dedication, Eagle helps clubs express their brand with confidence, combining superior design, durable materials, and attention to detail across every touchpoint.
